Welcome!

Congratulations on your acceptance into the Triton College Surgical Technology program! The information contained within this handbook will be useful as you prepare to start the program and as you move through the program. I encourage you to refer to it often.

Please let me know if any questions arise. I am happy to assist you.

Dr. Junge

Preface

Mission Statement

The mission of the Surgical Technology Program at Triton College is to meet or exceed the Standards and Guidelines for Accredited Education Programs in Surgical Technology set forth by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). This will be accomplished by preparing entry-level surgical technologists who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession and serve the community.

Program Goals and Learning Objectives

Adapted from “Surgical Technology Program Goals”, Trinity College of Nursing and Health Science

Cognitive (Knowledge)

- Demonstrate knowledge of surgical technology skills by successfully accomplishing controlled learning activities
- Employ information obtained from biological, social and psychological studies
- Obtain and use knowledge in providing culturally fitting patient care

Psychomotor (Skills)

- Apply acquired skills and knowledge within the clinical setting
- Practice surgical asepsis in diverse clinical backgrounds
- Function as a surgical team member to deliver excellence in patient care

Affective (Behavior)

- Demonstrate the development and consistent application of a surgical conscience
- Practice accountability, competence, and character demonstrative of a trained professional
- Practice ownership of learning and maintain responsibility and self-discipline to appraise and incorporate continued learning

About the Surgical Technology Program at Triton College

The Triton College Surgical Technology Program prepares the student to work as part of a team providing surgical patient care. Surgical technologists most often function in the scrub role, but

their responsibilities may include a variety of duties before, during and after surgery. The Program includes theory, simulation laboratory, and clinical components. Students receive supervised experience at several cooperating area hospitals.

About the Profession/Role of the Surgical Technologist

The Certified Surgical Technologist (CST) in the scrub role handles the instruments, supplies and equipment necessary during the surgical procedure. Certified Surgical Technologists have an understanding of the procedure being performed, anticipate the needs of the surgeon and have the necessary knowledge and ability to ensure quality patient care during the operative procedure, while monitoring and preserving the sterile field.

The CST is responsible for three phases of surgical patient care, or surgical case management, with minimal direction or supervision from other surgical team members. Some duties of the CST in each phase of case management include:

Preoperative Surgical Case Management

- Gathering necessary equipment and supplies
- Opening sterile supplies
- Donning personal protective equipment
- Scrubbing and donning sterile gown and gloves
- Organizing the sterile field for use
- Counting necessary items
- Assisting team members during entry to the sterile field
- Exposing the operative site with sterile drapes

Intraoperative Surgical Case Management

- Passing instrumentation, equipment and supplies to the surgeon and surgical assistant
- Preparing and handling pharmaceuticals
- Predicting needs of the patient and surgeon and preparing necessary items
- Counting necessary items
- Caring for specimens
- Applying dressings

Postoperative Surgical Case Management

- Maintaining the sterile field until the patient is transported to the post-anesthesia care unit (PACU)
- Removing instruments, equipment and supplies from the operating room (OR) following use
- Preparing the OR for the next patient

The proficient CST demonstrates a caring attitude towards the patient, other surgical team members and the patient-care environment. It is also necessary to understand normal anatomy and physiology, the pathological condition affecting the patient, the planned operative procedure, and consider any variations that may be necessary to accommodate a specific patient.

Program Policies

Policies contained within this handbook are in addition to any and all current rules, regulations, and other requirements set forth by Triton College. It is expected that the policies are followed as established and exceptions will not be made. Therefore, it is imperative that if these policies cannot be met, effective communication must take place with the instructor. Examples of communication would be prior notification of absence, turning in work early if unable to attend class, etc. It is the goal of the instructor to maintain a positive and cooperative working environment in which each student will be able to meet their fullest potential.

Academic Conduct Policy

Triton College closely adheres to principles of academic honesty and integrity. The academic honesty policy is designed to inform students and faculty of the expectations and procedures associated with the honest pursuit of a Triton College education. Overall, academic achievement is a product of personal commitment, and investigation of knowledge, and a pursuit of independent and honest work, both in and out of the classroom. All forms of cheating deprive the student of achieving true academic success and are therefore, considered a serious violation. Furthermore, all incidents of cheating will result in a disciplinary response from college officials. The policy is outlined in the student handbook.

Academic dishonesty, cheating and plagiarism, will not be tolerated. Any appearance of cheating or plagiarism will result in a grade of zero for the activity for all individuals involved.

- First Offense: Grade of zero on the assignment and academic counseling by the instructor and/or program chairperson.
- Second Offense: Grade of zero on the assignment and be placed on disciplinary probation (refer to Triton College Catalog) until completion of an academic counseling meeting with the Dean of Health Careers and Public Service Programs.
- Third Offense: Academic dismissal from Triton College.

More serious sanctions may be imposed according to the severity of the offense. This policy is in alignment with [Triton College Board Policy 5208](#).

Academic Progress/Grade Dissemination

Students must complete all courses in the surgical technology program and pass all laboratory skill assessments with a grade of “C” or higher to continue in the program. Unofficial grades may be accessed at any time through Blackboard. The final (official) grade is posted in the student portal.

Accreditation – College

Triton College is accredited by the Higher Learning Commission, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604-1413, 800-621-7440 or 312-263-0456.

Accreditation – Programmatic

The Triton College Surgical Technology program is accredited by the [Commission on Accreditation of Allied Health Education Programs](#) (CAAHEP), 9355 - 113th St. N, #7709, Seminole, FL 33775, 727-210-2350, in cooperation with the [Accreditation Review Council on Education in Surgical Technology and Surgical Assisting](#) (ARC/STSA), 19751 E. Mainstreet, Suite 339, Parker, CO 80138, 303-694-9262. Graduates qualify to apply to the [National Board of Surgical Technology and Surgical Assisting](#) (NBSTSA) for eligibility to sit for the Certified Surgical Technologist examination.

Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA)

The [Accreditation Review Council on Education in Surgical Technology and Surgical Assisting](#) (ARC/STSA) is a private, non-profit accreditation services body providing national recognition for higher education programs in surgical technology and surgical assisting, in collaboration with the [Commission on Accreditation of Allied Health Education Programs](#) (CAAHEP), in order to promote quality surgical patient care through quality education.

Admission Procedure

The Board of Trustees accepts that the fields of Nursing and Allied Health (including the Surgical Technology Program), because of their importance to the welfare of all society, must have selective admission requirements. Specific admission, progression, retention and graduation requirements and/or policies supersede general college policies in the catalog and student handbook. Selective admission requirements for Allied Health and Nursing programs are found in the Triton College Catalog.

Americans with Disabilities Act

The Americans with Disabilities Act (ADA) gives civil rights protections to individuals with disabilities that are like those provided to individuals on the basis of race, sex, national origin, and religion. It guarantees equal opportunity for individuals with disabilities in employment, public accommodations, transportation, state and local government services, and telecommunications.

Refer to the Resources for Students section of this handbook for a listing of academic accommodations and access services available.

Application Deadlines

Please complete the MANDATORY [Health Careers Application](#). Application deadlines are:

- September 15th
- January 15th
- March 15th
- June 1st (on an individual basis, if seats are available)

Areas of Employment

Surgical technologists are primarily employed in hospital operating rooms, surgery centers, and birthing centers. Other advanced opportunities are also available.

Association of Surgical Technologists (AST)

The [Association of Surgical Technologists](#) (AST) was established in 1969 by members of the American College of Surgeons (ACS), the American Hospital Association (AHA), and the Association of periOperative Registered Nurses (AORN). As the professional organization for surgical technologists, AST's primary purpose is to ensure that surgical technologists have the knowledge and skills to administer patient care of the highest quality. AST represents more than 80,000 surgical technologists and is governed by an 11-member Board of Directors.

Attendance and Punctuality Policy

- Attendance and punctuality are vital to success in the program. Students are expected to attend every class, to arrive on time, remain in class for the full class period, and participate in all class activities. Students who miss more than 20% of the contact hours for didactic, simulation lab, or clinical courses are not eligible to complete the course.
- Students are expected to notify program and clinical site personnel (if applicable) at least 60 minutes prior to an absence or late arrival.
- Late arrivals (including returning late from break) or early departures will result in point loss.
- Assignments, quizzes, and exams missed as a result of an absence, late arrival, or early departure cannot be made up. Completed assignments may be submitted for credit in advance of the due date.

- If a student arrives late when an exam or quiz is underway, the student will be denied entrance into the classroom until the quiz or exam has ended. The missed quiz or exam may not be made up.
- Refer to [Board Policy 5206](#).

Automatic Withdrawal Policy

Students who do not withdraw officially from a course may receive a grade of "F" depending on the course progress or course attendance, which will become part of the student's permanent record. Students must withdraw from the course to avoid receiving a failing grade.

Background Check

All students are required to undergo a criminal background check. Students with a positive background check that contains disqualifying convictions may be prohibited from being placed at a clinical site, sitting for certification board examinations, and securing future employment. Students are responsible for the cost of performing the background check. The program chairperson will provide instructions to obtain the Background Check at the New Student Orientation session.

Illinois Department of Public Health/Health Care Worker Registry/Disqualifying Convictions

In accordance with the Health Care Worker Background Check Act [225 ILCS 46](#) and 77 Ill Adm. Code 955 Section [955.160](#), a list of disqualifying convictions can be found on the [Illinois Department of Health – Health Care Worker Registry](#).

Bereavement Policy

Students should notify their instructor(s) of the death and impending absence.

Students shall be allowed up to three (3) days of absence for a death in the immediate family.

Immediate family includes parents, spouse, brothers, sisters, children, grandparents (of student and spouse), grandchildren, parents-in-law, brothers-in-law, sisters-in-law, stepchildren, legal guardians, and legal dependents.

Students who provide verification will be excused from class without penalty. All homework should be submitted in advance of the due date and if a quiz or exam is missed, an alternate quiz or exam will be provided.

Greif counseling is a free service for our students. To make an appointment with a counselor, please email counsel@triton.edu or call 708-456-0300, ext. 3588. You may also reach out to the student assistance plan called AllOne Health by calling 800-456-6327 free of charge at any time.

Bloodborne Pathogens/OSHA Training

You are required to complete the Bloodborne Pathogens/Universal Precautions - OSHA training and submit a copy of the completion certificate. This [link](#) will take you to the registration page for the Bloodborne Pathogens/Universal Precautions - OSHA training course where you will be allowed to create an account that aligns with the Triton College account and gain access to the **REDUCED COST** course. The program chairperson will provide the deadline for submission of the certificate.

Campus Map

Buildings are lettered alphabetically, with the Learning Resource Center as building A, Student Center as building B, Campus Bookstore as building C, and continuing around the campus. The Robert M. Collins Center is building R. The current campus map appears below.

CastleBranch

Surgical technology students use a service called CastleBranch to track the clinical requirements. Instructions on how to create an account, place an order, and pay the related fees will be provided during the new student orientation. Students are responsible for all costs related to CastleBranch.

Cell Phones and Electronic Devices

The use of cell phones or other electronic devices is prohibited in the classroom unless the instructor issues permission to use the devices. These devices must be turned off prior to entering the classroom unless prior arrangements have been made with the instructor.

Certification

The national certification examination for surgical technologists is administered by the [National Board of Surgical Technology and Surgical Assisting](#) (NBSTSA). Certification is required by the Illinois Department of Financial & Professional Regulation to obtain a license in the State of Illinois. Graduates of accredited surgical technology programs are eligible to apply to take the certification exam.

Child Development Center

The Child Development Center offers a range of high-quality, supervised educational programs for children aged 15 months to 5 years. Click [here](#) for information or to complete an application.

Clinical Requirements

Students must complete all health and clinical requirements (includes American Heart Association Basic Life Support for Healthcare Providers certification, drug and alcohol screening, background check, TB test, immunizations, physical exam, and any additional information required by the clinical site) prior to registration for SRT 205 and the requirements must be maintained through SRT 215. The student is responsible for the cost of all documentation. The program chairperson will provide the deadline for submission of all clinical documents.

Clinical Policies

Clinical policies are found in the Triton College Student Handbook and the SRT 205 and SRT 215 syllabi.

Clinical Sites

Availability of specific clinical sites varies. Students are assigned to the first available site pending completion of all health and clinical requirements. Students must complete all onboarding

requirements set forth by the clinical facility prior to the first clinical day. The clinical sites are located within a 60-mile radius of the campus. All transportation costs (including parking and tolls) are the responsibility of the student.

Code of Ethics

The [Code of Ethics for Surgical Technologists](#) is found on the [Association of Surgical Technologists](#) web page and is quoted below:

- To maintain the highest standards of professional conduct and patient care.
- To hold in confidence, with respect to the patient's beliefs, all personal matters.
- To respect and protect the patient's legal and moral rights to quality patient care.
- To not knowingly cause injury or any injustice to those entrusted to our care.
- To work with fellow technologists and other professional health groups to promote harmony and unity for better patient care.
- To always follow the principles of asepsis.
- To maintain a high degree of efficiency through continuing education.
- To maintain and practice surgical technology willingly, with pride and dignity.
- To report any unethical conduct or practice to the proper authority.
- Adhere to this Code of Ethics at all times in relationship to all members of the healthcare team.

Commission on Accreditation of Allied Health Education Programs (CAAHEP)

The [Commission on Accreditation of Allied Health Education Programs](#) (CAAHEP) is the largest programmatic accreditor in the health sciences field. In collaboration with its Committees on Accreditation, CAAHEP reviews and accredits over 2,000 educational programs in twenty-eight (28) health science occupations.

CAAHEP is recognized by the Council for Higher Education Accreditation (CHEA). CAAHEP is also a member of the Association of Specialized & Professional Accreditors (ASPA).

Confidentiality – Patient

The [HIPAA Privacy Rule](#) establishes national standards to protect individuals' medical records and other personal health information and applies to health plans, health care clearinghouses, and those health care providers that conduct certain health care transactions electronically. The Rule requires appropriate safeguards to protect the privacy of personal health information and sets limits and conditions on the uses and disclosures that may be made of such information without patient authorization. The Rule also gives patients' rights over their health information, including rights to examine and obtain a copy of their health records, and to request corrections. Students found to be in violation of the HIPAA Privacy Rule are subject to immediate dismissal from the

program according to the guidelines found in the Triton College Student Handbook and are subject to fines and imprisonment from governmental regulatory authorities.

Confidentiality - Student

The [Family Educational Rights and Privacy Act](#) (FERPA) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

Course Requirements (Prerequisite, Didactic, Simulation Lab, Clinical) and Descriptions

Course Requirements

Surgical Technology – Curriculum SRT.SRT.AAS (C216C)

Prepares the student to work as part of a team providing surgical patient care. Surgical technologists most often function in the scrub role, but their responsibilities may include a variety of duties before, during and after surgery.

A variety of employment opportunities exist in hospitals, surgical centers, birthing centers and other health care agencies. The U.S. Bureau of Labor Statistics projects that the need for surgical technologists will increase by approximately 30% between now and 2022.

The program includes theory, simulation laboratory and clinical components. Students receive supervised experience at several cooperating area hospitals.

Accredited by the Commission on Accreditation of Allied Health Education programs, 9355 - 113th St. N, #7709, Seminole, FL 33775, 727-210-2350, in cooperation with the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting, 19751 East Mainstreet, Suite #339, Parker, CO 80138, 303-694-9262. Graduates qualify to apply to the National Board of Surgical Technology and Surgical Assisting for eligibility to sit for the Certified Surgical Technologist examination.

Program Prerequisites:

- High School Diploma or GED
- Attendance at a Surgical Technology Information Session
- Must score at the college level or better on the Reading and Writing placement exam or course equivalency.
- Placement exam scores must not be more than two years old.
- Completion of prerequisite courses must not be more than five years old and all prerequisite coursework must be completed with a grade of "C" or higher. The three prerequisite courses are:
 1. AHL 120 Comprehensive Medical Terminology 3 Credits
 2. MAT 065 Foundations of Algebra 5 Credits
 3. BIS 136 Functional Human Anatomy 1 4 Credits

OR

 - BIS 240 Human Anatomy & Physiology 1 4 Credits
- A criminal history records check with no disqualifying convictions is required prior to admission to the program
- Surgical technology courses must be taken in sequence and all program requirements must be completed with a grade of "C" or higher
- Students must complete all health and clinical requirements (includes American Heart Association Basic Life Support for Healthcare Providers certification, drug screening, and any additional information required by clinical site) prior to registration for SRT 205 and the requirements must be maintained through SRT 215
- Surgical Technology is a selective admission program with preference given to the most qualified individuals as determined by a point system based on academic history related to completion of prerequisite courses and previous medical experience

Associate in Applied Science Degree

Semester One (Fall)		Credit Hours

Surgical Technology Course Descriptions**SRT 100 – Surgical Technology Basics (1 Semester, 3 Credits, 45 Lecture Contact Hours)**

Provides introductory information related to the profession of surgical technology as well as foundational information concerning the healthcare sciences, technological sciences, patient care concepts, and professional practices.

SRT 110 – Basic Surgical Skills Theory (1 Semester, 3 Credits, 45 Lecture Contact Hours)

Introduction to the surgical environment includes an overview of the roles of the surgical team members, attire, furniture, instrumentation, equipment, and supplies. The three phases of surgical case management are described and principles of asepsis and the practice of sterile technique are presented.

SRT 111 – Basic Surgical Skills Lab (1 Semester, 3 Credits, 90 Lab Contact Hours)

Students will perform basic individual skills related to the three phases of surgical case management by applying the principles of asepsis and implementing the practice of sterile technique.

SRT 120 – Basic Surgical Procedures (1 Semester, 5 Credits, 75 Lecture Contact Hours)

Noninvasive and invasive diagnostic procedures as well as basic surgical interventions for general, obstetric and gynecologic, endoscopic, otorhinolaryngologic, genitourinary, trauma, and orthopedic surgical disciplines are examined.

SRT 121 – Advanced Surgical Skills Lab (1 Semester, 3 Credits, 90 Lab Contact Hours)

Building on the theories investigated in SRT 110 and the basic skills learned in SRT 111, students will assimilate individual surgical case management skills into systematic practice.

SRT 130 – Specialty Surgical Procedures (1 Semester, 6 Credits, 90 Lecture Contact Hours)

Encompasses an in-depth study of relevant surgical anatomy, physiology, pathophysiology, and diagnostic interventions as well as factors unique to the following specialty procedure areas: ophthalmic, oral and maxillofacial, plastic and reconstructive, oncologic, cardiothoracic, peripheral vascular, neurosurgical, and pediatric.

SRT 131 – Surgical Simulation Lab (1 Semester, 3 Credits, 90 Lab Contact Hours)

Mock surgical procedures are carried out in the simulated operating room. Student must provide all necessary health records, a negative drug screening, and an American Heart Association CPR for Healthcare Providers certification that are current for the duration of the program.

SRT 200 – Professional Development (1 Semester, 6 Credits, 90 Lecture Contact Hours)

Professional development and employability skills including resume writing and interview techniques.

SRT 205 – Clinical Experience I (1 Semester, 3 Credits, 450 Clinical Contact Hours)

Under direct supervision, at the assigned clinical site, the student will perform nonsterile and sterile surgical case management duties. Assignments may include the sterile processing department, preoperative holding area, surgery department, endoscopy department, labor and delivery department, and the postanesthesia care unit. In conjunction with SRT 215 (Clinical Experience II), the student is expected to scrub a minimum of 120 cases. The clinical sites are located within a 60-mile radius of the campus.

SRT 210 – Certification Exam Prep (1 Semester, 6 Credits, 90 Lecture Contact Hours)

Comprehensive review of information learned throughout the program is provided in preparation for the National Certification Examination offered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA).

SRT 215 – Clinical Experience II (1 Semester, 3 Credits, 450 Clinical Contact Hours)

Under direct supervision, at the assigned clinical site, the student will perform nonsterile and sterile surgical case management duties. In conjunction with SRT 205 (Clinical Experience I), the student is expected to scrub a minimum of 120 cases. The clinical sites are located within a 60-mile radius of the campus.

Cardiopulmonary Resuscitation (CPR) Card

An American Heart Association CPR for Healthcare Providers card is required and must not expire before June of the year of completion of the program (proof of current CPR card is to be submitted along with your health forms). Students are responsible for the cost of obtaining the CPR certification. The program chairperson will provide the deadline for submission of the health forms.

Certified Surgical Technologist (CST) Exam Participation Required

Participation in the Certified Surgical Technologist (CST) Exam is REQUIRED for graduation.

Disability and Academic Accommodations

Students needing academic accommodations due to a medical condition/disability must make their request at the Center for Access and Accommodative Services (CAAS), Room A-125. Instructors are not required to provide accommodations until the student presents their CAAS card to them. Students will be given a CAAS card that lists the accommodations for which they have been approved. Students are required to show every instructor their CAAS card each semester within the first week of classes. Students taking online classes must scan both sides of their CAAS card and email it to the instructor informing them of their accommodations.

Disability Access

The program chairperson/instructors are happy to accommodate any student with disabilities or identified special needs. Please see the program chairperson/instructor privately if you need assistance.

Refer to the Resources for Students section of this handbook for a listing of academic accommodations and access services available.

Dismissal from Program

Students who fail to comply with Triton College policies, regulations, and rules will be subject to disciplinary action, including dismissal from the College. Disciplinary hearings will be facilitated through the Dean of Student Services office or designee and conducted by the Student Conduct Committee. The Student Conduct Committee will be appointed by the Vice President of Student Affairs and membership will be reviewed on an annual basis.

In cases of suspension or dismissal, the decision of the Student Conduct Committee may be grieved through the Student Life Committee. In cases which involve academic concerns, grievances will be initiated with instructor, department chairperson, and academic dean. The decision of the academic dean is final.

A student accused of violating College policies and/or regulations may be diverted from the disciplinary process if it is determined that the student is suffering from a psychological disorder and, as a result of the psychological disorder, engages or threatens to engage in a behavior which poses a danger of causing physical harm to self or others, or would cause significant property damage or impedes the lawful activities of others.

Dress Code

- All students are expected to be in full compliance with the Triton College Surgical Technology Program Uniform Requirement.
- Failure to follow the Uniform Requirement will result in point loss.
- If it is determined by the instructor that the student has grossly deviated from the Uniform Requirement, s/he will be excused from class and sent to change with a resulting point loss. Any assignment missed as a result of the student leaving class will not be accepted late.
- Refer to the Uniform Requirement for additional information.

Drug and Alcohol Policy

Triton College/Student Policy for Drug-Free Campus

It is the policy of Triton College, District 504, to provide a "drug-free" campus environment as defined by college policy as approved by the Board of Trustees. The college policy is made available to all students via the student handbook and is disseminated throughout the college community.

Triton College prohibits the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance within the campus environment. Appropriate sanctions include but are not limited to:

1. Required participation in an approved chemical dependency program
2. Disciplinary warning
3. Suspension
4. Dismissal

Such sanctions will be imposed on students found to be in violation of this policy.

Substance abuse counseling is available via the Student Assistance Program. Information regarding the Student Assistance Program is available from the Counseling department. Additional information regarding the dangers of drug abuse is available in the Counseling Center, Triton College Library and Health Services.

Alcoholic Beverage Policy

The use of alcohol at college functions is inconsistent with the institution's endorsement of the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226) and its Drug-Free Campus Policy.

Alcoholic beverages may not be served on the Triton College premises except for instructional purposes (i.e., hospitality industry management and/or associated programming).

Drug and Alcohol Screening

Although use of alcohol and cannabis are legal in the state of Illinois, cannabis remains a controlled substance under Federal Law. Thus, its possession and use are currently illegal under Federal Law. Possession and use of alcohol, cannabis and all other illegal substances are forbidden by Triton College and the surgical technology program within all learning environments.

Students must complete all health and clinical requirements prior to registration for SRT 205 and the requirements must be maintained through SRT 215. A negative 10-panel drug screen and alcohol test are preclinical requirements. Students will be given the opportunity to submit supplemental medical documentation of prescribed use. Students may be subject to subsequent drug and alcohol testing following an episode of suspicious behavior, an accident/injury, or at random (without cause). The cost of all testing is the student's responsibility.

A student with a positive drug or alcohol test should immediately eliminate all sources of exposure (ingestion and/or inhalation – including second-hand smoke). Metabolites can remain in the body for 30 days or more.

- Student should wait 4-6 weeks and retest (updated test is due no later than May 15th) – student will have to reregister via CastleBranch and pay the fee again.
- If the second test is negative, student may remain in the program – if positive, student will be terminated.

E-Mail

E-mail is the official method of communication. Be sure to check your Triton College e-mail account daily and respond to any messages (as needed) within 24 hours.

Employment Opportunities

A variety of employment opportunities exist in hospitals, surgical centers, birthing centers and other health care agencies.

FEMA – ICS 100 Course

You are required to complete Lessons 1-6 and the Final Exam of the IS – 100.b – [Introduction to the Incident Command System](#) (ICS 100) course and submit a copy of the completion certificate. Exam submission is free and is processed within FEMA database. Upon completion, you will receive an email within 1-2 business days with a link to view and print your electronic certificate. The program chairperson will provide the deadline for submission of the certificate.

Food and Drink

- Absolutely no food and/or drinks (other than plain water in its original container) will be allowed in the classroom.
- No food and/or drinks of any kind will be allowed in the lab.
- Chewing gum is strictly prohibited.
- Failure to abide by the Surgical Technology Program policy regarding food and drink will result in point loss.

Grade of Incomplete

Refer to [Board Policy 5202](#).

Grading Scale

Points earned in the course are converted to the percentage and letter grade as shown in the chart below for final grades and transcripts.

Grading Scale (%)	
90-100	A
80 - 89	B
70 - 79	C
60 - 69	D
0 - 59	F
Incomplete	I

Grading Scale (%)	
Withdrawn	W
Pass**	P
Reschedule**	R

**Grades of "P" or "R"; "P" or "F" are assigned in specific approved courses based on individual academic department policy.

Students must pass all surgical technology courses with 70% or better for credit in the course and move to the next term.

Graduation Requirements

All coursework must be completed with a grade of "C" or better to qualify for graduation. Participation in the Certified Surgical Technologist (CST) Exam is REQUIRED for graduation. A Graduation Petition Form must be completed and submitted with the required fee for graduation at the Cashier's Office located in the A Building. The Graduation Petition Form may be obtained via your [MyTriton Portal](#). Select the Academic Planning tab under the Web Advisor for Students section, then click the Application for Graduation link.

Grievance (Complaint) Policy

Triton College, in its mission, is committed to student success through institutional and academic excellence, and providing a student-centered, lifelong learning environment for our diverse community. To that end, our desire is for you to have a positive experience at Triton College. We recognize that at times situations may occur whereby students need to have the opportunity to voice a complaint.

The student complaint process governs any case in which a student has a complaint on an action that is deemed objectionable by the complainant against Triton College or a member of the faculty, administration, or employee of the institution. Students are strongly encouraged to resolve any concern informally through the appropriate individual or department with whom the concern resides. If however, an issue or problem still exists, there is a formal complaint process that students may initiate.

NOTE: The student complaint process does not apply to a request for a routine decision (e.g., tuition appeals, requirement waiver, etc.), grade appeals, complaints of sexual harassment, or complaints of discrimination. Please refer to the [Student Handbook](#) for procedures regarding these types of complaints (i.e. "change of grades", "sexual harassment", "non-discrimination policy").

Procedure

All complaints should be submitted in writing (complaints may also be submitted via email) in complete detail promptly after the occurrence, describing the concern clearly and concisely. In order to fully investigate the complaint, the following information is needed:

1. The name and contact information of the student who is communicating the concern
2. Date and details of the incident/nature of the complaint
3. Name of the person(s) involved
4. Name and contact information of any witnesses of the incident
5. Signature of the complainant
6. Complainant's desired resolution

A delay in reporting can make it difficult to investigate and address the concern. All complaints must be filed within 30 days of the date that the incident occurred.

Academic Student Complaint

Step I

Student confers with the involved faculty and/or staff member in order to resolve the issue informally. If the complaint is not resolved, the student may submit a written complaint to the individual's supervisor (i.e. Department Chair, Dean, Vice President). The supervisor will attempt to reach a mutually acceptable resolution.

Step II

If the student feels that the issue is still unresolved, she/he may submit a written complaint to the appropriate Academic Dean who supervises that area. The Academic Dean discusses the complaint with the student and affected party and attempts to reach a mutually acceptable resolution.

Step III

If the resolution presented by the Academic Dean is not reached, the student may appeal the resolution to the Vice President of Academic Affairs. The Vice President of Academic Affairs may:

- A. Offer a resolution to the complaint
- B. Dismiss the complaint
- C. Take appropriate action

Decision of the Vice President is final.

Non-Academic Student Complaint

Step I

Student confers with the employee involved in order to resolve the issue.

Step II

If the student feels that the issue is still unresolved, a formal complaint should be made to the immediate supervisor of the person involved in the alleged violation. The administrative officer or immediate supervisor Discusses the complaint with the student and affected party and attempts to reach a mutually acceptable resolution.

Step III

If the resolution presented by the administrative officer or immediate supervisor is not reached, the student may appeal the resolution to the appropriate Dean of the area. In the absence of a Dean, the student may appeal to the appropriate Vice President. The Vice President of Student Affairs may:

- A. Offer a resolution to the complaint
- B. Dismiss the complaint
- C. Take appropriate action

Decision of the Vice President is final.

In the event a student complaint should be brought forward to the Office of the Vice President, Office of the President, or Board of Trustees, the complaint should be redirected in order to ensure the student complaint process is adhered.

Health Records/Requirements

Health Records - Health forms may be obtained from the CastleBranch web site. Students must complete all health and clinical requirements (includes American Heart Association Basic Life Support for Healthcare Providers certification, 10 panel drug screen and alcohol test, background check, and any additional information required by the clinical site) prior to registration for SRT 205 and the requirements must be maintained through SRT 215. The program chairperson will provide submission instructions and the deadline for completion of the health requirements.

Conditions that Cause Loss of Consciousness

Any applicant to the clinical portions of Health Career programs who is afflicted with epilepsy or any other condition that causes loss of consciousness or otherwise may impair his/her ability to perform will furnish the Office of the Dean of Health Careers with a verified statement from a licensed physician to the effect that the applicant's condition does not pose a direct health or safety threat or significant risk to the student, patients, hospital staff or others in the Health Career program or clinical facility.

In addition, the applicant will agree to remain under the care of a physician and follow treatment as prescribed. Furthermore, each applicant's physician must report immediately to the College any change in the applicant's ability to function safely in the clinical portion of the program. Any default in this agreement will constitute cause for the removal of the student from the clinical portion of the program.

Health Services

The Health Services Department is staffed by experienced Registered Nurses who address the needs of our students from physical assessment to health education and prevention to referrals and wellness. Services are free and confidential. Lactation rooms are located in B-161L and G-109. Click [here](#) for the latest COVID-19 information. Website (including hours): <https://www.triton.edu/students/health-services/> Email: aurahill@triton.edu Phone: 708-456-0300, Ext. 3359

Help Desk

For questions, comments, concerns or to report problems regarding hardware and software, contact the [Triton College Help Desk](#) at (708) 456-0300, Ext.3527, or email helpdesk@triton.edu. Help Desk personnel are available:

- Monday - Thursday: 7:30 a.m. - 8:00 p.m.
- Friday: 8:00 a.m. - 4:00 p.m.
- Saturday: 8:00 a.m. - 1:00 p.m.
- Sunday: Closed

Higher Learning Commission (HLC)

The [Higher Learning Commission](#) (HLC) is an independent corporation that was founded in 1895 as one of six regional institutional accreditors in the United States. HLC accredits degree-granting post-secondary educational institutions in the North Central region, which is comprised of 19 states including Illinois.

HIPAA for Health Care Workers Training

You are required to complete the HIPAA for Health Care Workers training and submit proof of completion. This [link](#) will take you to the registration page for the HIPAA for Health Care Workers training course where you will be allowed to create an account that aligns with the Triton College account and gain access to the **REDUCED COST** course. The program chairperson will provide the deadline and instructions for submission of the certificates.

Illinois Department of Financial & Professional Regulation – Division of Professional Regulation

The mission of the [Illinois Department of Financial and Professional Regulation](#), Division of Professional Regulation is to serve, safeguard, and promote the health, safety, and welfare of the public by ensuring that licensure qualifications and standards for professional practice are properly evaluated, applied, and enforced.

The Division regulates a variety of health care and occupational professionals including surgical technologists.

This [link](#) will take you to the Surgical Technologist Licensee Application Forms, Resources and Publications, Laws and Rules, and a Contact Form.

Information Session Participation Required

Attendance at an Information Session is REQUIRED in order to apply for admission to the surgical technology program. Register for an upcoming information session [HERE](#).

Injury or Illness Occurring at Clinical Facility

- Inform your preceptor and clinical instructor of any injury or illness occurring at the clinical facility as soon as possible. Incident reports will be generated by both facility and college personnel according to protocol.
- According to the severity of the injury or illness, the student must be attended to immediately in the facility employee health or emergency department. Per the Triton College Clinical Affiliation Agreement, “The clinical affiliate shall provide emergency medical care in cases of accidents occurring on duty; however, all students are responsible for their own medical fees in cases of illness.” Costs related to the student’s care will be assigned to the student’s hospitalization insurance.
- Decisions regarding management of care will be made by employee health or emergency department personnel after initial assessment. A student involved in an exposure incident must receive appropriate laboratory testing and treatment immediately. A student’s decision to decline treatment or seek treatment at another facility must be obtained in writing.

Job Outlook

The [U.S. Bureau of Labor Statistics](#) projects that the need for surgical technologists will increase by approximately 6% between now and 2033, faster than the average for all occupations. Advances in medical technology have made surgery safer, and more operations are being done to treat a variety of illnesses and injuries.

Jury Duty

Students who are called to jury service should consult with their instructor concerning the impact of absences caused by jury service on their academic progress. It is recommended that the student contact the court and ask that the jury service be deferred to a time when the student is not expected to be in class (term break, spring break, or winter break). Some counties/districts/municipalities allow exemptions for students.

If a deferral or an exemption is not allowed, students who have provided verification of their jury duty assignment will be excused from class without penalty. All homework should be submitted in advance of the due date and if a quiz or exam is missed as a result of jury service, an alternate quiz or exam will be provided.

Late Assignments

- Homework and other take home assignments must be completed prior to the start of class and are due at the beginning of class.
- Late assignments will not be accepted under any circumstance.
- It is the student's responsibility to plan beforehand if unable to attend class when homework, projects, current events, presentations, or other assignments are due.
- Failure to be prepared for class with the proper assignments and/or necessary supplies completed on time will result in point loss.

Major Injury/Illness/Maternity Return Policy

Students returning to the clinical setting following a major injury/illness or maternity leave must provide written documentation from their physician stating that they may be involved in all clinical activities with no physical restrictions.

Malpractice Insurance

Malpractice insurance is provided by the college and the student pays for the coverage through related course fees. As an added precaution, students are encouraged to obtain a personal liability policy.

National Board of Surgical Technology and Surgical Assisting (NBSTSA)

The [National Board of Surgical Technology and Surgical Assisting](#) (NBSTSA) was established in 1974 as the certifying agency for surgical technologists. NBSTSA is solely responsible for all decisions regarding certification; from determining eligibility to maintaining, denying, granting and renewing the designation.

The National Commission for Certifying Agencies (NCCA) reviews and grants accreditation to the NBSTSA for its administration of both the Certified Surgical Technologist (CST) and Certified Surgical First Assistant (CSFA) certifications.

The purpose of NBSTSA is to determine, through examination, if an individual has acquired both theoretical and practical knowledge of surgical technology or surgical first assisting. In addition, through the acquisition of continuing education credits or by re-examination, CST's certified after August 31, 1977 and all CST/CSFAs are required to stay up to date with changes in the medical field.

New Student Orientation Session Participation Required

Attendance at a New Student Orientation Session is REQUIRED prior to starting the surgical technology program.

No Loitering Policy

Loitering near the surgical technology classroom (H210) and simulation lab (H212) is not allowed. Each clinical site's individual policy concerning loitering will be followed.

Non-Surgical Technology Coursework

Ideally, AHL 202, RHT 101, BIS 222, PSY 100, SOC 100, and SPE 101 have already been completed in preparation for the surgical technology courses. **ALL** program requirements must be fulfilled in order to complete the surgical technology program. Students who have completed the general education courses will be at an advantage. If you haven't already successfully completed AHL 202, RHT 101, BIS 222, PSY 100, SOC 100, and SPE 101, seriously consider if you will be able to fit the additional courses into your schedule or if it would be better for you to delay your enrollment in the surgical technology program until next fall.

Occupational Hazards/Protective Attire

As a member of the surgical team, it is essential that you familiarize yourself with potential hazards to ensure that you minimize the risk of injury or exposure to occupational hazards while on the job. Potential risks found in the operating room include (but are not limited to) physical, biological, and chemical hazards. **Certain occupational hazards can have an impact on reproductive health (of the male and female) and may negatively impact pregnancy.** Please notify your instructor immediately if you become pregnant during the clinical portion of the program to allow initiation of precautionary measures.

Appropriate protective attire is available at the clinical site and must be worn by the student in all hazardous situations.

Pregnancy Policy

Certain occupational hazards may negatively impact pregnancy. Please notify the program chairperson and the appropriate clinical site personnel **IMMEDIATELY** if you become pregnant during the clinical portion of the program to allow initiation of precautionary measures.

Students returning to the clinical setting following a major injury/illness or maternity leave must provide written documentation from their physician stating that they may be involved in all clinical activities with no physical restrictions.

Professional Behavior

It is the goal of this program to prepare individuals for the professional work environment. It is necessary to create a positive atmosphere of camaraderie and mutual respect. Each student is a representative of Triton College and the Surgical Technology Program on campus, in the community, and in the clinical setting. For this reason, appropriate professional behavior will be emphasized.

- Use of foul and/or offensive language will not be tolerated. Verbal abuse of any student or instructor, whether present or not, will not be tolerated.
- All students will be expected to maintain a professional attitude at all times.
- Disrespectful behavior of any kind is not appropriate in a professional environment.
- If a student has a concern or other grievance, they are encouraged to speak with the other students involved or with the instructor after class or during conference hours.
- The use of cell phones or other electronic communication devices is prohibited in the classroom unless the instructor issues permission to use the devices. These devices must be turned off prior to entering the classroom unless prior arrangements have been made with the instructor.
- During exams, you must remain in your seat at all times. You may not leave the room for any reason.
- Failure to comply with these standards will be dealt with on an individual basis, and point loss is left to the discretion of the instructor.

Readmission Policy

Pertains to students who withdrew, are repeating a course, or were terminated prior to program completion.

1. All students seeking readmission should submit completed "Request for Readmission to a Health Career Program" form to the Health Careers Information Specialist no later than 30 days prior to the start of the semester in which they seek readmission, unless the student is seeking readmission to the 1st semester of a program then the student must submit their request by January 15th of the year they seek admission.
2. All students petitioning for readmission will be evaluated and readmitted as long as the requirements for the semester have been met and depending on the availability of seats or clinical spaces after currently enrolled students have been placed.
3. Any student who has withdrawn ("W") and/or was terminated twice in a single Health Career/Public Service course will be subject to individual review of academic performance by the program Admission Committee prior to granting of permit to register for the same course.
4. Students seeking readmission who for any reason have not taken any program specific courses in the two years prior to the readmission date, will be required to retake all previously completed program specific course requirements.
5. All student health and clinical requirements (including current American Heart Association Basic Life Support for Healthcare Providers certification and any additional information required by the clinical site) must be up to date prior to registration for SRT 205 and the requirements must be maintained through SRT 215. The background check and drug screening will be repeated within 45 days prior to assignment to a clinical affiliate.
6. The program reserves the right to assess the student's level of knowledge in order to ensure current competency (including lab, lecture and clinical content). Students returning to a clinical course must demonstrate proficiency prior to readmission.

Resources for Students

Academic Coaching

The Division of Academic Success offers academic coaching sessions Mondays through Thursdays in the Library. To learn more or schedule an appointment, please click [HERE](#).

Academic Success Center (ASC)

Services include individual and small-group tutoring, academic study skills and college life skills workshops.

Location: Room A-106, on the lower level of the Learning Resource Center (Library)

For Information or to Schedule an Appointment: Call the ASC staff at 708-456-0300, extension 3341.

Advising

The Academic Advising Department at Triton College proactively supports and empowers students to develop and achieve their educational and career goals.

Advising at Triton College is an interactive partnership between advisors and students. Advisors facilitate a smooth transition for incoming students through course placement, registration, academic planning and assistance with obtaining relevant information and services. Advisors nurture students' academic habits such as goal setting and attainment, self-awareness, and responsible decision making.

Advisors are assigned based on your program of interest. To schedule an appointment with an advisor, please click [HERE](#).

Center for Access and Accommodative Services (CAAS)

The Center for Access and Accommodative Services (CAAS) can assess your needs as a student, make academic accommodations, coordinate access services and provide advocacy referral services. Students with medical, physical, sensory or learning disabilities who are participating in academic and continuing education programs at Triton College can benefit from these services.

Location: A-125 and A-141

For Information: Call the CAAS staff at 708-456-0300, extension 3854 or 3917

Counseling

Counselors empower individuals to identify and achieve personal, academic and career goals. Counselors promote wellness and provide innovative student-centered services to meet the diverse needs of our community. They help students become oriented with the college and the campus, identify interests and skills to assist in selecting a major and a career choice, deal with personal concerns in a private and confidential setting and help locate appropriate resources for assistance. Click [here](#) to schedule an appointment with a counselor.

Locations: D-122 and B-120

For information, call the Counseling Department at 708.456.0300 ext. 3588, stop in D-122 or email counsel@triton.edu.

Educational Technology Resource Center (ETRC)

Resources include computers for drafting/printing papers, color printers, MSOffice 2007 and internet access. Limited tutoring available, please contact the ETRC for more detailed information.

Location: A Building (Room A-100)

For Information: Call the ETRC staff at 708-456-0300, extension 3361.

Emergency Transportation

Troy-Rides, powered by Lyft, will provide up to two emergency rides for students from home to school, clinicals, or work within a 12-mile radius. This service is available for students facing urgent circumstances. Click [HERE](#) for information or to complete an application.

Food and Essential Supplies

Troy Mart provides free food and personal care items to all students who self-identify their needs. To learn more or complete an online application, please click [HERE](#). Email: troymart@triton.edu
Phone: 708-456-0300, Ext. 3919

Library/Learning Resource Center

Resources include over 75,000 books and other materials, 450 current periodicals, e-books, and online indexes to journal articles. Subject Guides have been developed specifically for the surgical technology students. Click [here](#) to access the Surgical Technology Subject Guides. Computers and printers are available for research purposes. Also available are group study rooms and laptop computers (HP & Mac) free of charge with current Triton College and State ID.

Location: The northern end of the Learning Resource Building - A Building on the campus map.

For Information: Please call the library staff at 708-456-0300; Reference Desk: Extension 3698 or 3154; Circulation Desk: Extension 3215

Mental/Medical Health Care Access via AllOne Health (Free)

Triton College is partnering with AllOne Health to provide students with free and easy access to mental and medical health professionals 24/7. Once connected, these professionals can assist students with a number of services, including connecting them with a mental health professional, on-demand and scheduled medical care, and finding free or reduced-cost programs for basic needs. Go to perspectivesltd.com/login and click on "Sign Up." Then enter the Student Code (TR1004) and your @triton.edu email address. Call 800-456-6327, no account needed.

Salary

Nationally – approximately \$60,370 per year (\$29.03 per hour); according to [The Bureau of Labor Statistics](#).

Illinois –average of \$27.51 per hour; according to the [Association of Surgical Technologists](#).

Scholarships

Foundation for Surgical Technology

The [Foundation for Surgical Technology](#) funds need-based academic scholarships for surgical technology students and administers award programs funded by partner organizations. Click on the link above to learn about eligibility requirements and how to apply.

Triton College

In addition to offering federal and state financial aid programs, Triton College awards over \$750,000 in scholarships each year. Students are awarded scholarships for academic excellence, leadership, athletics, community service, and enrollment in specific academic programs. The

scholarships are offered by the Triton College Board of Trustees, Triton College Foundation, or by outside individuals/organizations exclusively for Triton College students. Click [here](#) to view scholarship opportunities and complete an application.

School Supplies

The following school supplies are recommended:

- Calendar or organizer
- Pens (black ink)
- Pen (any color other than black, blue, or red)
- Large (recommend 3") binder with 15 dividers (per class)
- Lined paper
- Highlighters (at least two colors)
- Tablet/laptop with internet capability and access to a printer
- Personal listening device compatible with student's tablet/laptop
- Minimum 8G portable USB storage device (shared between classes)
- 3" x 5" index cards (lots)

Selective Enrollment Process

Admission to the surgical technology program is selective and a point system that allows the most qualified applicants to be accepted is utilized. Points are accumulated by earning high grades during completion of program prerequisites and with documented related healthcare experiences.

Simulation Lab Skill Assessments

- All skill assessments must be passed with a grade of "C" or higher.
- Students will only be allowed three attempts to pass a skill (remediation and supervised practice are available by appointment).
- The score on a repeated skill assessment may not exceed 70%.
- Failure to pass a skill will result in failure of the course.
- Skill assessments will not be accepted after 3 days (including Fridays but excluding Saturdays, Sundays, and holidays) from the due date. Skill assessments must be passed to move to the next assigned skill assessment.

Social Media

When participating in online social networking, the lines between public and private, personal and professional can become blurred. Identifying yourself as a representative of the Triton College surgical technology program or as a representative of a clinical agency, you are creating perceptions about the school, clinical agency, and your expertise. Students must recognize that they are

contributing to the global image of the surgical technology profession when posting to social networking sites. Even when students intend for social media postings to be “private”, the concept of privacy does not exist in social networking. Anything posted to a social media site is potentially open to public viewing creating potential unintended outcomes and simply deleting content never removes the material from potential internet access. Surgical technology students must maintain strict adherence to standards of professionalism when posting to social media sites.

Additionally, students must maintain strict adherence to privacy and confidentiality standards and should be familiar with the Health Insurance Portability and Accountability Act (HIPAA). Students have a duty to report any breach of confidentiality or privacy, either of their own volition or by others, to the appropriate department faculty member. Inadvertent or intentional breaches of confidentiality can occur through comments about patients and/or patient family members, posting stories about what happened in clinical or classroom experiences. Posting a comment to another person’s post that may identify a patient, clinical agency or family member is also a potential breach, so while someone else may be originator of the post, your comment links you to the violation as well. Students found to be in violation of the HIPAA Privacy Rule are subject to immediate dismissal from the program according to the guidelines found in the Triton College Student Handbook, and are subject to fines and imprisonment from governmental regulatory authorities.

Student Identification

The Triton College identification badge must be worn as part of the program uniform at all times while on campus, traveling to and from the clinical sites, and when representing Triton College off campus. Students must also comply with any additional identification requirements imposed by the clinical affiliate.

Study Skills and Time Management

For each credit hour in which you are enrolled, you should plan to spend approximately two to three hours outside of class studying. The surgical technology program is rigorous and effective time management skills are essential.

Technical Standards for Admission and Retention

Surgical Technologists must be able to meet the following standards. Please review the occupational qualifications to ensure that you are able to meet all requirements prior to entering the program/profession.

1. Able to stand, bend, stoop, and/or sit for long periods of time in one location with minimum/no breaks.
2. Able to lift a minimum of 25 pounds.
3. Able to refrain from nourishment or restroom breaks for periods up to 6 hours.

4. Demonstrate sufficient visual ability enough to load a fine (10-0) suture onto needles and needle holders with/without corrective lenses and while wearing safety glasses.
5. Demonstrate sufficient peripheral vision to anticipate and function while in the sterile surgical environment.
6. Hear and understand muffled communication without visualization of the communicator's mouth/lips and within 20 feet.
7. Hear activation/warning signals on equipment.
8. Able to detect odors sufficient to maintain environmental safety and patient needs.
9. Manipulate instruments, supplies and equipment with speed, dexterity, and good eye-hand coordination.
10. Ambulate/move around without assistive devices.
11. Able to assist with and/or lift, move, position, and manipulate the patient who is unconscious with or without assistive devices.
12. Communicate and understand fluent English both verbally and in writing.
13. Be free of reportable communicable diseases and chemical abuse.
14. Complete all health and clinical requirements (includes American Heart Association Basic Life Support for Healthcare Providers certification, drug and alcohol screening, background check, TB test, immunizations, physical exam, and any additional information required by the clinical site).
15. Possess short- and long-term memory sufficient to perform tasks such as, but not limited to, mentally tracking surgical supplies and performing anticipation skills intraoperatively.
16. Able to make appropriate judgment decisions.
17. Demonstrate the use of positive coping skills under stress.
18. Demonstrate calm and effective responses, especially in emergency situations.
19. Exhibit positive interpersonal skills during patient, staff, and faculty interactions.
20. Able to fit into currently available sizes of personal protective equipment (PPE) and wear protective equipment for long periods of time.

Textbooks

The textbook list is below. Textbooks are available in the Triton College Bookstore but may be purchased anywhere. It is recommended that you purchase rather than rent the textbooks. Please have all the books available on the first day of class.

Author	Title/Edition	Publisher	ISBN Number	Author
	Required Surgical Technology for the Surgical Technologist: A Positive Care Approach, 6 th Edition (with MindTap)	Cengage	9780357625736	Association of Surgical Technologists

	Required A Study Guide to Surgical Technology for the Surgical Technologist: A Positive Care Approach, 6 th Edition (with MindTap)	Cengage	9780357625750	Association of Surgical Technologists
	Required Practical Pharmacology for the Surgical Technologist, 1 st Edition (with MindTap)	Cengage	9781435469808	Junge
	Required Surgical Instrumentation: An Interactive Approach, 4 th Edition	Elsevier	9780323776936	Nemitz
	Required Surgical Equipment & Supplies, 3 rd Edition	F.A. Davis	9781719648417	Rutherford
	Required Pocket Guide to the Operating Room, 4 th Edition	F.A. Davis	9780803668393	Goldman

Title IX

Title IX is a civil rights law passed in 1972, which prohibits gender discrimination in educational settings that receive federal funding. Sexual harassment, sexual assault, sexual misconduct and other gender-based conduct violations are all considered discrimination, regardless of the gender and sexual orientation of the reporting party and the accused. Issues may relate to, but are not limited to:

- Sex or Gender-based Discrimination
- Students experiencing discrimination
- Discrimination in Athletics
- Discrimination due to Pregnancy and Parenting
- Discrimination against students identifying as transgender or gender-nonconforming

In accordance with Title IX of the U.S. Department of Education's Education Amendment of 1972, Triton College reaffirms its commitment to affirmative action and offers equal employment and

educational opportunities, including career and technical education opportunities, without regard to race, color, religion, sex, national origin, disability, veteran status, age, or any other basis which is protected by law except where such characteristics are bona fide occupational requirements.

Click [here](#) to access additional Title IX information and resources.

Uniform Requirement

The Triton College Surgical Technology Program Uniform Policy is below. Uniforms and shoes are available in the Triton Bookstore but may be purchased anywhere. Consider investing in high quality shoes because you will be on your feet for several hours during your lab classes and your clinical experiences. The Triton College Surgical Technology patches are only available in the Triton Bookstore. It is recommended that you purchase at least four full sets of scrubs because you will be wearing them every day; starting with the first day of class.

Appearance is a first step toward becoming a professional. The uniform requirement is designed to help you prepare for professional dress standards in the surgical environment. Uniforms will be worn at all times while on campus or traveling to and from the clinical site. Students who do not comply with the uniform requirement face point loss.

Only the following approved clothing items may be worn during SRT courses.

Shirt

- Navy blue scrub top: plain, pullover, made of 100% cotton or a cotton/polyester blend (no spandex). Top to be tucked. The Triton College Surgical Technology patch must be sewn onto the upper left sleeve of all uniform shirts.
- Visible undershirts or other garments may not be worn under the scrub top.

Warm-Up Jacket

- Navy blue basic warm-up jacket made of 100% cotton or a cotton/polyester blend (no spandex). The Triton Surgical Technology patch must be sewn onto the upper left sleeve of all warm-up jackets.

Pants

- Navy blue scrub pants: plain, made of 100% cotton or a cotton/polyester blend (no spandex).
- Pants must be worn at the natural waist and within a standard fit.

Shoes

- Plain, all black (solid uppers) leather or vinyl nursing or athletic shoes with rubber sole worn with black socks. Compression socks with 20 mm Hg PSI are strongly recommended.
- No canvas or cloth shoes; no open toe/open heel shoes.

General Appearance Items

- Uniforms must be neat, clean, in good repair, and worn at all times while on campus and traveling to/from the clinical sites unless instructed otherwise by your instructor or clinical site personnel.
- Dresses or skirts are not allowed.
- Triton name badge must be worn with the uniform.

- Good personal hygiene habits such as frequent bathing, using unscented deodorant, and daily oral care are required.
- Use of heavy makeup including false eyelashes and eyelash extensions, scented hair and skin care products, perfume, and cologne is not allowed.
- Hair must be neat, clean, and worn away from the face. If the hair is collar length or longer, it must be tied back; not touching the scrub top.
- Mustaches and beards should be neatly trimmed.
- Nail length must not extend beyond the fingertips. Acrylic/artificial nails or nail polish of any kind is not allowed.
- Students may not wear jewelry of any kind in the classrooms, labs or at the clinical sites.
- Outerwear (coats, jackets, hats, gloves, etc.) is not allowed to be worn in the SRT classroom/lab.
- Any attire or adornment that is deemed unprofessional (examples – clothing that fits poorly or is in poor condition, “grills”, etc.) will not be allowed. You will be asked to cover open wounds and body markings (examples – cuts, hickeys, tattoos).

Withdrawal

If you wish to withdraw from a program class after registration, you must notify the program chairperson. You must meet with the chairperson and the s/he will process the withdrawal request on your behalf. A student who does not withdraw officially from a class is subject to an “F” grade. Refund and withdrawal dates are based on the percentage of completion of class calendar days. Please consult your class schedule in the "My Triton" portal for specific dates.

Work Policy

The student may not act as a substitute for paid staff and all clinical time must be served without monetary compensation.

To reduce the risk of clinical errors, students must be alert during their clinical experiences; therefore, students cannot work an overnight shift immediately prior to reporting to the clinical site.
